

# Compact pressure switches for gas and air GW...A6 GW...A6/1

Double pressure switch  
GW... / ...A6

5.01

## Technical description

The pressure switch GW...A6 and the double pressure switch GW.../....A6 are adjustable compact pressure switches as per EN for firing systems. They are suited for switching a circuit on, off or over if the actual pressure value changes compared to the set-point.

The setpoint (switching point) is set on an adjusting wheel with scale. A test nipple is integrated in the metal housing as standard.

## Application

Pressure monitoring in combustion, ventilation and air-conditioning technologies.

Suitable for gases of families 1,2,3 and other neutral gaseous media.

## Approvals

EC type test approval as per EC Gas Appliance Directive:

GW...A6 CE-0085 AO 3220

EC type test approval as per EC Pressure Appliance Directive:

GW...A6 CE0036

Pressure switch class „S“ as per EN 1854.

Approvals in other important gas-consuming countries.

### Functional description

Single-acting pressure switch in over-pressure range.

The pressure switches operate without any power supply.

### Switching response

#### GW...A6

Short response time during pressure fluctuations.

#### GW...A6/1

Slow response time during short-term pressure fluctuations by additional damping nozzle.

### GW...A6 pressure switch

The control unit responds to pressure. If the setpoint is exceeded or undershot, the circuit is switched on, off or over.

### GW... / ...A6 double pressure switch

Combination of two flanged GW...A6 single pressure switches. The two setpoints are set separately and independently. A combination of different setpoint ranges is therefore possible. The two control units are fed from the same medium at the medium's pressure.

### Switching function

#### If pressure increases:

1 NC opens, 2 NO closes.

#### If pressure drops:

1 NC closes, 2 NO opens.

### Definition of $\Delta p$ switching difference

The  $\Delta p$  switching difference is the pressure difference between the upper and lower switching pressure.

## Specifications

Max. operating pressure	GW 3 A6 - GW 150 A6 GW 500 A6	500 mbar 600 mbar	(50 kPa) (60 kPa)
Pressure connection	Standard:	centrally on housing bottom, G 1/4 inner thread as per ISO 228	
	Special design:	additionally G 1/4 inner thread (side right)	
Measuring connection	Test nipple integrated in metal housing $\varnothing 9$		
Temperature range	Ambient temperature	-15 °C to +70 °C	
	Medium temperature	-15 °C to +70 °C	
	Storage temperature	-30 °C to +80 °C	
Materials	Housing:	Aluminium die cast	
	Switch part:	Polyamide	
	Diaphragms:	NBR	
	Switching contact:	Ag	
Switching voltage	AC eff. min. 24 V DC min. 24 V	max. 250 V max. 48 V	
Nominal current	<b>GW 10...500 A6</b> AC eff. max. 10 A	<b>GW 3 A6</b> AC eff. max. 6 A	
Switching current	AC eff. max. 6 A at $\cos \varphi 1$ AC eff. max. 3 A at $\cos \varphi 0,6$ AC eff. min. 20 mA DC min. 20 mA DC max. 1 A	AC eff. max. 4 A at $\cos \varphi 1$ AC eff. max. 2 A at $\cos \varphi 0,6$ AC eff. min. 20 mA DC min. 20 mA DC max. 1 A	
Electrical connection	Terminal connection for line sockets as per DIN EN 175 301-803, 3-pin, protection-insulated without ground connection		
Degree of protection	IP 54 as per IEC 529 (EN 60529)		
Setting tolerance	$\pm 15\%$ switch point deviation referred to setpoint, adjusted for <b>dropping</b> pressure, vertical diaphragm position		

### Mounting options GW...A6 Safety solenoid valve SV-... 505-520

#### Pressure tap GW...A6 mounting possible ...

1	no
2	no
3	pe ( $p_1$ )
4	pa ( $p_2$ )

## Dimensions [mm]

### GW ... A6, A6/1

### GW ... / ... A6

## Installation position

**Standard installation position; if a different installation position is used, pay attention to the changed operating points:**

GW 3...50 A6	approx. $\pm 0,6$ mbar
GW 150 A6	approx. $\pm 1$ mbar
GW 500 A6	approx. $\pm 3$ mbar

**When installed horizontally, the pressure switch switches at a pressure higher.**

**When installed horizontally overhead, the pressure switch switches at a pressure lower.**

**When installed in an intermediate installation position, the pressure switch switches at pressure deviating from the set reference value.**

## Designation

## Order example

### Pressure switch design

Pressure switch GW...A6

### Setting range

5 - 150 mbar

### Contact material

Ag

### Electrical connection

Equipment connector

### Pressure connection

G 1/4 at position 0

### Test nipple

MS 9

### Sealing screw

At position 3
